Introduction: The Dawn of the Christmas Card

The modern Christmas card, a seemingly ubiquitous symbol of the holiday season, has a surprisingly rich and complex history, its roots firmly planted in the Victorian era of the 19th century. Before the mass-produced cards of today, exchanging greetings during the Christmas season was a more personal, often handwritten affair. This introduction sets the stage, discussing the pre-card era, the social context of Victorian Britain, and the burgeoning technologies that would make the Christmas card possible. We'll explore the social pressures and growing desire for mass communication that ultimately led to the creation of the first commercial Christmas cards.
