Chapter 1: The Early Years (Pre-1900 – 1950s)

Soho's Pre-Bohemian Beginnings: Industrial Roots and Early Inhabitants

Before becoming the art and fashion hub it is today, Soho was primarily an industrial district. Chapter 3: Gentrification and Change (1980s – 2000s)

The Tide Turns: The Arrival of High-End Businesses and Developers

As Soho's reputation grew, so did property values. The influx of artists was followed by developers and high-end businesses, transforming the character of the neighborhood. This section will examine the process of gentrification in Soho and its impact on 80 Wooster Street. We will analyze how the building's use might have shifted, how its residents changed, and the broader social and economic consequences of this transformation.

Balancing Preservation and Progress: Navigating the Challenges of Change
