

ADHD TOOLKIT FOR WOMEN

Book Concept: ADHD Toolkit for Women

Title: The ADHD Woman's Thrive Guide: Strategies, Support, and Self-Compassion

Concept: This book transcends the typical ADHD self-help guide by weaving a narrative storyline around three fictional women with ADHD, each facing unique challenges in different life stages. Their interwoven journeys offer relatable scenarios and practical advice, avoiding the overly clinical approach often found in such books. The book employs a compassionate, empowering tone, focusing on self-acceptance and building strengths rather than solely on symptom management.

Storyline/Structure:

The book follows three women: Ava, a high-achieving young professional struggling with burnout; Chloe, a stay-at-home mom overwhelmed by household chaos and feelings of inadequacy; and Maya, a seasoned entrepreneur navigating midlife transitions and the complexities of relationships. Each chapter alternates between one of these women's perspectives, illustrating different facets of living with ADHD as a woman, followed by a practical toolkit section offering concrete strategies relevant to the chapter's themes. The toolkit sections include exercises, worksheets, and real-world examples. The book concludes with a chapter on building a supportive community and sustaining long-term well-being.
