Book Concept: Alejandro Magno y Cleopatra: A Love Untold

Logline: A sweeping historical fiction novel exploring the tantalizing "what if" scenario of a romantic entanglement between Alexander the Great and Cleopatra VII, weaving fact and imaginative possibility to reveal a hidden chapter in their respective legendary lives.

Storyline/Structure:

The novel unfolds in a dual narrative structure, alternating between Alexander's perspective during his conquests and Cleopatra's in her early years as a powerful queen-in-waiting. The "what if" is introduced subtly; perhaps a time-traveling anomaly, a shared ancestor's prophecy, or a miraculous encounter in a dream, brings them together in a fictionalized meeting. The story will blend historical accuracy with a compelling romantic subplot. We'll see Alexander grappling with the immense pressures of his empire while falling for Cleopatra's intellect and independence. Cleopatra, meanwhile, will navigate political machinations while facing the challenges of falling for a man whose life is so fleeting and whose ambitions overshadow even her own desires. The narrative will explore their differing cultural backgrounds, their political ambitions, and their profound emotional connection amidst the backdrop of their respective historical periods. The climax will involve a difficult choice, revealing the ultimate sacrifice required to preserve their respective legacies.
